## THE BOOMERS AGAIN.

SEVERAL PERSONS ARE SEVERELY HURT IN THE RUSH

For Town Lots in the New Government Town of Chandler—A Woman Newspaper Reporter is Thrown From Her Horse and Killed.

Associated Press Dispatches.

CHANDLER, O. T., Sept. 29.—Couriers arriving this afternoon gave the details of the opening of the government town-site of Chandler, in the Sacs and Fox reservation. The site was opened to settlement at 12 yesterday and the scene which followed the valley of musketry which announced the opening was awful. A mass of 3,000 excited men and women intent upon securing lots had gathered about the boundary of the town. At 12 o'clock sharp the signal was given and with a mighty yell from 300 throats and amid the cracking of whips and volleys of oaths, shouts and curses, the confederate mass of men and women on horse and on foot rushed the barriers for town lots. As the angles of advancing lines met many riders were unhorsed and hurled pell-mell into the road. Many persons are reported killed and others as having received severe injuries. Miss Davis, representative of the Globe-Silver News, was thrown from her horse and killed. One of the race and striking her head on a rock was killed. The excited and merciless crowd had no time to attend to the dying and rode over the body of the unfortunate woman until it was recognized by friends who took it out of the surging mass of humanity. As there were three or four times as many people as lots the result could easily be foretold. There are from three to six claimants for a great many of the lots and it will take considerable time to adjust differences. An Indian killed a white man during a quarrel over liquor.

A CURIOUS CRANK.  
Man in Woman's Clothes or Woman in Man's Clothes.

HANOVER, N. H., Sept. 29.—Late last night a woman with a veil over her face and wearing a long circular cloak went to the house of A. H. Warden, father of Christie Warden, recently murdered by Frank Almy and without any preliminary said: "I came here to stay tonight. I want to see Christie's room and sleep in her bed. I am a friend." The family were startled, but allowed the woman to come into the house. She said she would explain all in the morning. Oscar Warden, brother of A. H. Warden, noticed that the visitor had a masculine appearance, and suddenly he seized her hands. She then struggled and the circular cloak was removed, disclosing a person in full male evening attire. The intruder then declared she was Dr. Mary Walker, and becoming excited, she said she had come to save Andrew Warden's life and would make further explanation. In the morning the family were surprised to find the woman sitting up with the woman, until morning. Oscar Warden felt so confident that the person was a man and had confederates about, that he and a neighbor stood guard all night before the house, armed with shot guns. About 2 a. m. steps were heard by the outside watchers, but the family were frightened away whoever made them. The alleged Dr. Walker made some attempt to identify herself by showing two receipts for registered letters bearing the name of Dr. Mary Walker, some baggage checks from a Boston hotel, about \$75 in cash. Persons asserting they knew Dr. Mary Walker state that person is not she. The intruder later volunteered the information that the man Almy they have arrested is not the man that killed Christie Warden.

He examined the man and came to the conclusion that they were not highwaymen, but robbers, and he threw out the box. The driver gave them a look and a speech. ## TAXES AND DEATH.

BOTH COME TO THE STARVING RUSSIAN PEASANTS.

The Government insists That Bread Be Taken From Dying Subjects to Satisfy the Tax Collector—A Horrible Condition of Affairs in Russia.

Associated Press Dispatches.

LONDON, Sept. 29.—A circular has been issued by the minister of interior of Russia, which enumerated thirteen governments, in which the people are completely famine-stricken, and eight in which a partial famine prevails. The great fair, which is annually held at Nijni Novgorod, attended by merchants and dealers from all parts of Russia, was a failure this year. This was due to the enormous number of bankrupts and their consequent withdrawal from trade. In many villages the peasants have nailed up their huts and have left their communities to scour the country in search of work. Hundreds of them have failed in their search and are begging along the roadsides. In numerous cases seed corn, which was furnished the peasants by the government, has been eaten instead of being planted, and the lands are lying fallow. Notwithstanding the terrible condition of the peasants the taxes continue to be exacted from the starving people. Everything is taken from them to satisfy the demands of tax-gatherers, and where peasants display any unwillingness to pay taxes, collectors resort to physical means to extort money from them. The known is extensively employed by the officials of the tax-collecting department of Russia.

PHILIPS' WELL.  
A New Wagon Road Opened to the Bonanza Mine.

Charlie Phelps got in from the new Harqua Hala road yesterday. By dint of faith and perseverance he has succeeded in making himself a valuable place on the desert and has assured the use of the new road which he opened himself last year. His well is eighteen miles west of the capital of the Territory, and forty miles from the Harqua Hala. At the present depth of eighty-five feet the water comes in at the rate of 1000 gallons daily and as it is rising too fast to be overcome by hand he has come in to the Bonanza mine, and has secured an appliance to pump it out. He intends to increase the capacity to 3000 gallons daily before considering the well finished and then he will have a valuable cattle ranch as well as an important water station on the shortest route between Phoenix and the Bonanza mines. The new road crosses the Buckeye canal a short distance west of Sidney and keeps on due west toward Saddle Mountain, leaving that prominent landmark to the left. It cuts off fully twenty-five miles from the old route. The well is five miles this side of the saddle.

A NEW ENTERPRISE.  
Murray's Cool Storage Rooms for Butchers' Meat.

The cold storage rooms recently completed by Mr. Murray at his meat market on Washington street opposite the City hall, are a monument to his energy and enterprise and a credit to the city. Mr. Murray has been all summer adjusting and perfecting the running of the machinery and now has a horse power engine and an 8-horse power boiler with which he easily keeps his two storage rooms at a temperature of 38 degrees and lower.

The rooms are 12x12 with a ceiling 10 feet high, which is a perfect net work of ammonia pipes. These rooms are kept dry and there is no sign of moisture either on the walls or floor, nor indeed on the splendid sides of beef that are hanging firm and cold in each room. The great advantage of these cooling rooms is that the meat can be kept as good as new for a long time. Most is hardly palatable nor wholesome when eaten too soon after killing before the animal heat is thoroughly out of it and Mr. Murray can now keep meat two or even three days in an almost frozen condition before using it.
